CORE SKILLS

Rust

3+ yrs

Actix Web, Axum, Tokio, Hyper, Serde, Diesel, SQLx, Rayon, Request

Java

15+ yrs

Spring Boot, Spring MVC, Spring Data JPA, Spring Security, Spring Cloud, OpenFeign, Hibernate, JPA, R2DBC, Flyway, Liquibase, Maven, Gradle

Databases

PostgreSQL, Oracle, MySQL, Sybase, Redis, MySQL, ClickHouse

Cloud & DevOps

AWS, GCP, Docker, Kafka, Jenkins

★ Professional Summary

Senior Backend Developer with **15+ years in Java** and **3+ years in Rust**, specializing in high-performance microservices and distributed systems. Built systems handling **500K+ daily transactions** with 99.9% uptime.

Expert in Spring Boot, Actix Web, PostgreSQL, and cloud infrastructure. Reduced API latency by **35%** through Rust optimization. Passionate technical leader who trained **200+ developers**.

Professional Experience

Rust Developer

Rust

gtfs.pro

Apr 2022 - Apr 2025 (3 years)

Actix Web, Tokio, PostgreSQL, Redis, Docker, AWS

- Architected microservices handling **10K+ daily API calls** with sub-50ms latency
- Reduced API response time by **35%** through async Rust optimization
- Implemented Redis caching reducing database load by **40%**
- Built CI/CD pipeline improving deployment speed by **60%**

Senior Java Developer

Java

Teamwork Commerce (Uniqlo)

Jun 2019 - Apr 2022 (3 years)

Spring Boot, Hibernate, PostgreSQL, Redis, AWS, GCP

- Designed systems processing **500K+ daily transactions** globally
- Improved data sync by **25%** through batch processing optimization
- Implemented hybrid AWS/GCP infrastructure with disaster recovery
- Achieved **99.9% uptime** through circuit breakers and monitoring
- Led team of 3 developers, established Spring Boot best practices

2007

Senior Backend Java Developer

🔗

Java

Almexoft

📅

Jun 2016 – Jun 2019 (3 years)

Spring Boot

Kafka

ClickHouse

ElasticSearch

▶ Developed analytics platform serving **100K+ users** with sub-second response

▶ Reduced processing time by **15%** through query optimization

▶ Built event-driven architecture using Kafka for real-time analytics

▶ Mentored 5 junior developers in microservices patterns

Java Developer

🔗

Java

Massmo Group (Tele2)

📅

May 2013 – Jun 2016 (3 years)

Spring

Hibernate

Oracle

Tomcat

▶ Developed telecom billing systems and CRM platforms

▶ Managed Oracle databases with millions of customer records

▶ Optimized queries reducing report generation by **40%**

🏆

Key Achievements

▶ Built enterprise systems handling **500K+ daily transactions** with 99.9% uptime

▶ Reduced API latency by **35%** through Rust async optimization

▶ Trained **200+ developers** with 75% employment success rate

▶ Led engineering teams of 3-5 developers to production excellence

▶ Implemented hybrid cloud infrastructure reducing costs by **20%**
